Step 1) Fold and unfold along the diagonals.

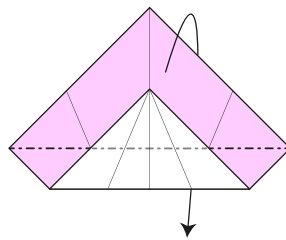

Step 2) Fold the bottom-left and bottom-right edges to the center line. Then, unfold.

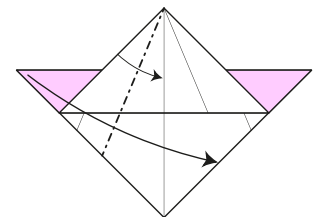

Step 3) Turn the paper over.

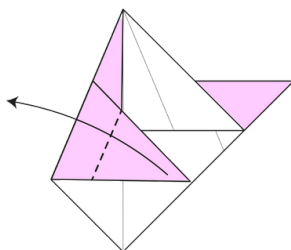

Step 4) Fold the bottom corner up along the dotted line. The bottom edges should align with reference points.

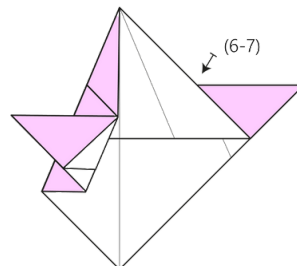

Step 5) Mountain fold the bottom layer along the horizontal diagonal crease created in Step 1.

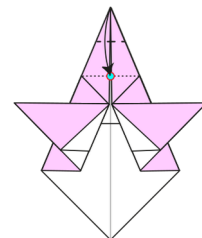

Step 6) Fold the left edge of the top flap to the center line.

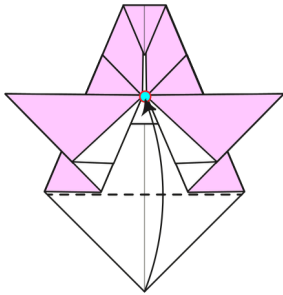

Step 7) Fold the top flap along the dotted line to create the first wing. Adjust the angle to your taste.

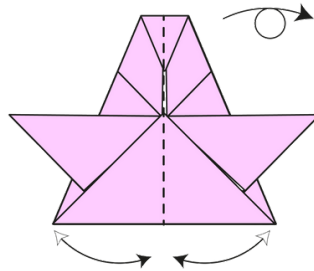

Step 8) Mirror Steps 6 and 7 on the right side to create the second wing.

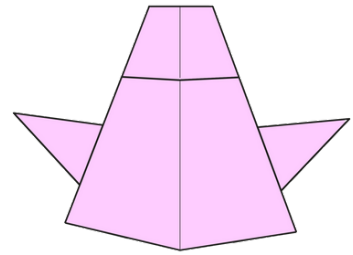

Step 8) Fold the top corner along the dotted line to meet the reference point.

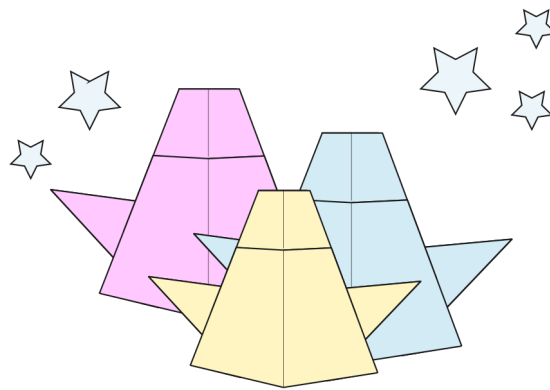

Step 10) Fold the bottom corner up along the dotted line, using the bottom edges of the colored paper as guides.

Step 11) Slightly fold the model in half so it can stand on its own. Then, turn the model over.

The completed model!

The Completed Origami Angel.
