STEP 1: Start with a rectangular paper. Color on both sides. (Square paper can also be used Following the same directions).

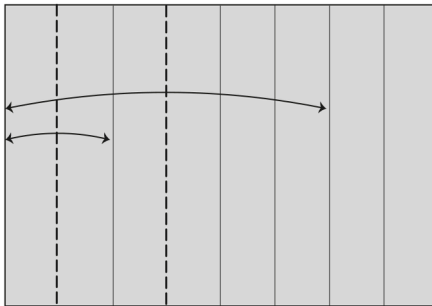

STEP 2: Fold in half.

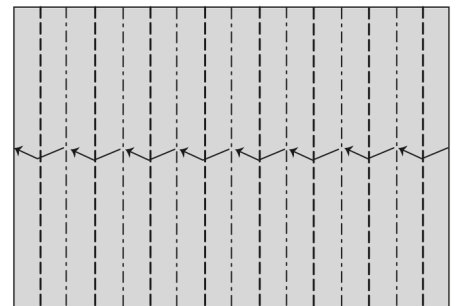

STEP 3: Fold the segments formed in the previous step in half.

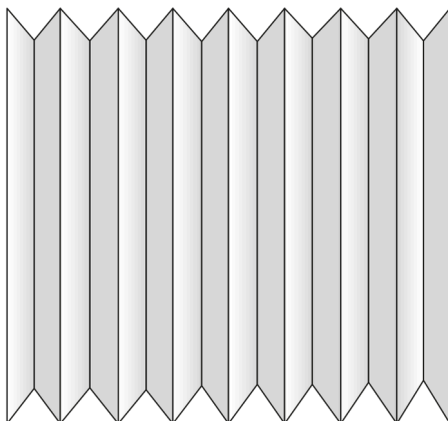

STEP 4: Fold as shown.

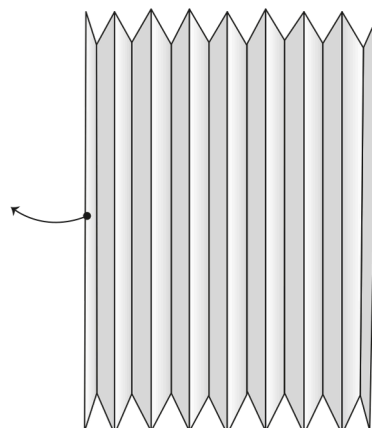

STEP 5: Fold as shown.

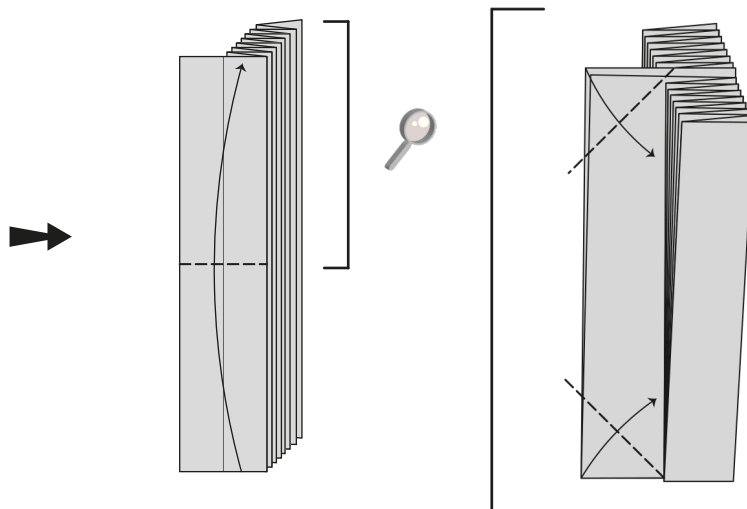

STEP 6: Turn around. Divide each vertical segment in half and wrinkle.

It looks like this.

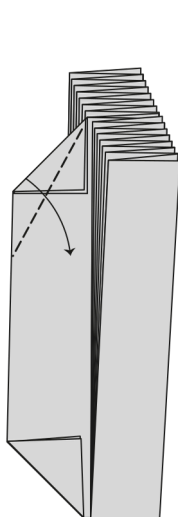

STEP 7: With the corrugated paper, unfold the segment on the left.

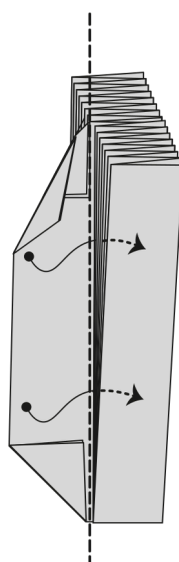

STEP 8: It will be seen this way. Fold in half.

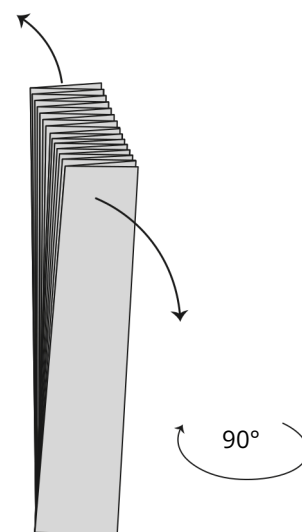

STEP 9: Enlarged view of the folded model. Fold as shown.

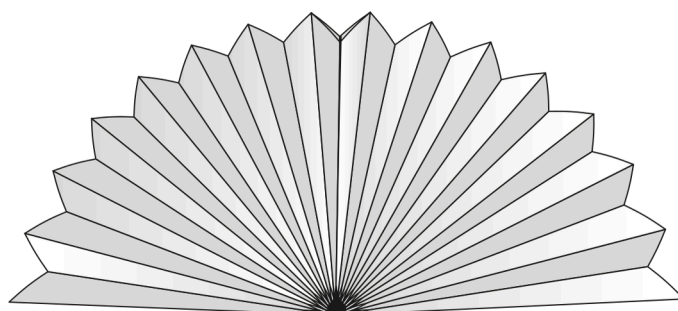

STEP 10: Fold the top end of the attached tabs.

STEP 11: Insert in the first space next to the tabs.

STEP 12: Open and rotate.

Completed model!
