Step 1) Start with 2 papers of the same size. Fold both in half and unfold.

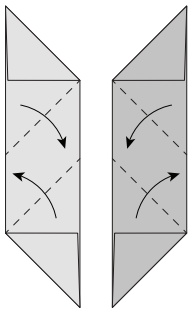

Step 2) Fold the sides of both papers to the center line.

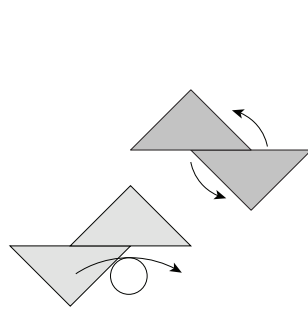

Step 3) Fold both papers in half.

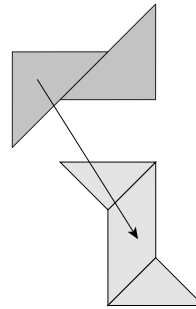

Step 4) Fold the corners along the dotted lines. Note that the folds for both papers are mirrored of each other.

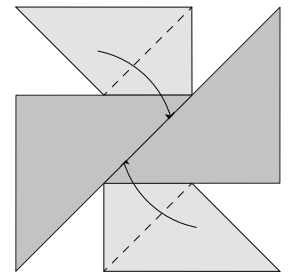

Step 5) Fold along the dotted lines.

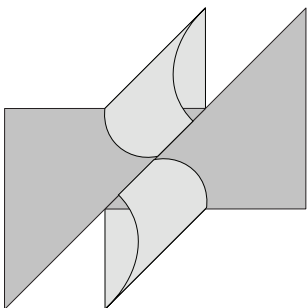

Step 6) Flip one unit around, and rotate the other by 45 degrees.

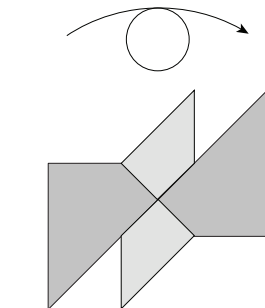

Step 7) Place the rotated unit directly on top of the flipped unit.

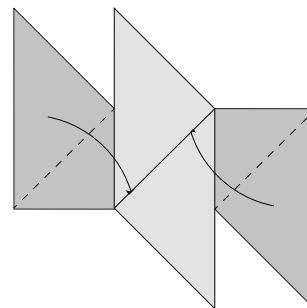

Step 8) Fold along the dotted lines, tucking the tips of the flaps under the flaps of the upper unit.

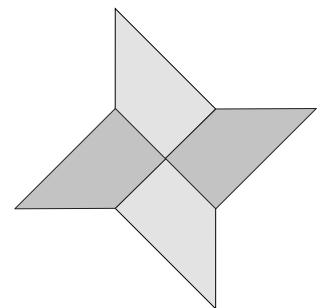

Fold in progress.

Step 9) Flip the entire model over.

Step 10) Fold along the dotted lines, tucking the tips of the flap underneath, similar to step 8.

Completed model!
