Step 1) Fold and unfold along the diagonals.

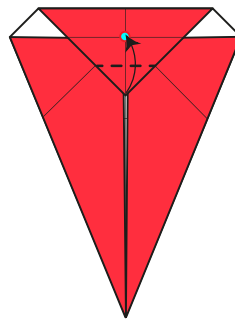

Step 2) Fold the bottom-left and bottom-right edges to the center line.

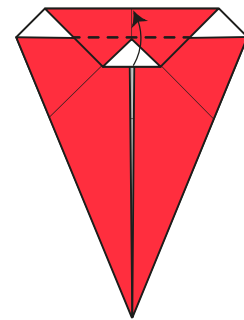

Step 3) Fold the top corner to the colored edge.

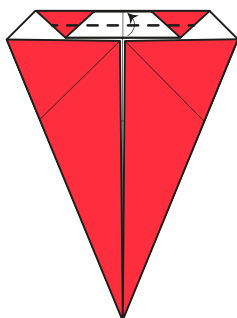

Step 4) Fold so the crease created in Step 3 lines up with the colored edge.

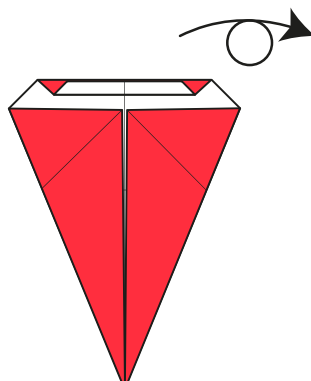

Step 5) Fold the top flap bottom corner so it meets the crease created in Step 3.

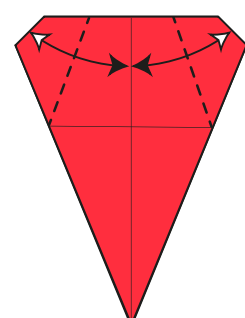

Step 6) Fold the top flap bottom edge to the top edge. Here, we use the crease created in Step 3.

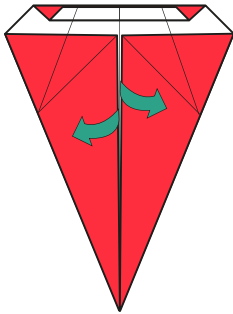

Step 7) Fold the top flap in half.

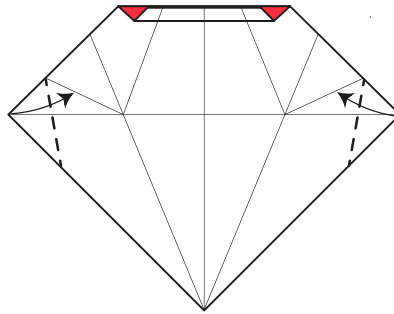

Step 8) Turn the model over.

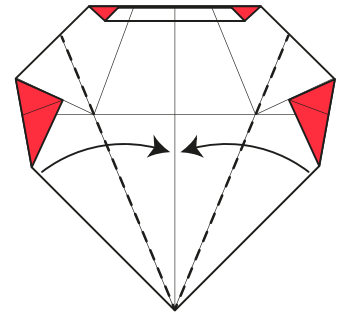

Step 9) Fold the short edges to the center line. Then unfold.

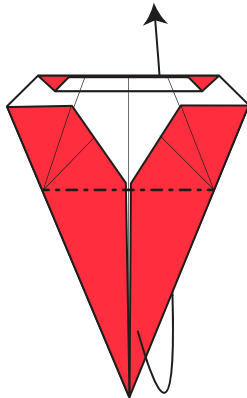

Step 10) Turn the model over. Then, open the two layers.

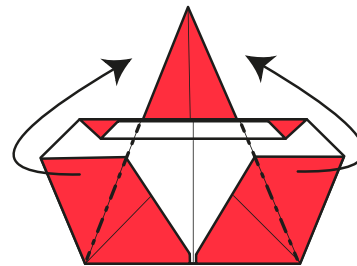

Step 11) Fold the left and right corners to the nearest crease. The edge should align with the crease.

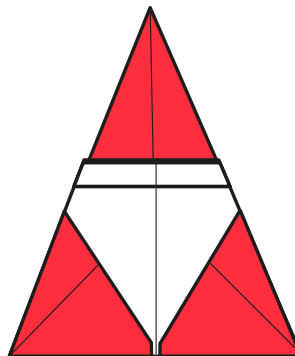

Step 12) Refold the two layers we opened in Step 10.

Step 13) Fold the lower flap behind. Use the existing creases as reference points.

Step 14) Fold the left and right flaps behind. You can keep them partly open to form a stand.

The completed origami Santa.
