STEP 1: Start with the white side of the paper facing up, in a diamond position. Fold along the horizontal diagonal and unfold.
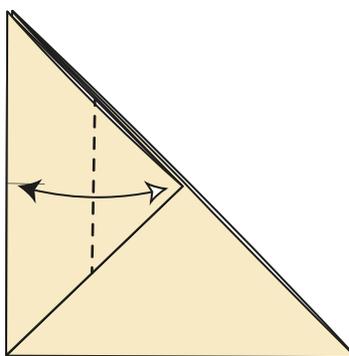

STEP 2: Fold the left corner to meet the right corner, folding the triangle in half.
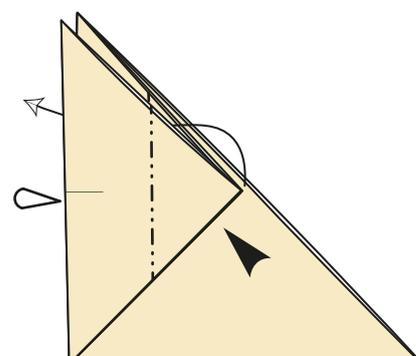

**STEP 3:** Fold the top layerś bottom right corner up to the top left corner.

STEP 4: Fold the top layerś top corner down to the bottom corner. Lightly pinch to mark a reference point, then unfold.
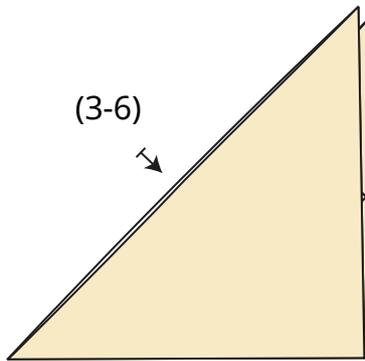

**STEP 5:** Fold the top flapś right corner to pinch mark made in Step 4. Crease well, then unfold.

**STEP 6:** Use the crease from Step 5 to make an inside reverse fold.

STEP 7: Turn the model over.
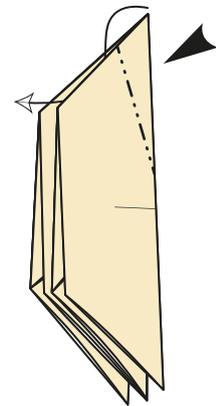

STEP 8: Repeat Steps 3 to 6 on this side.

(3-6)

STEP 9: Flip the model from bottom to top.

FOLDING TIP:
Theres´no exact reference point here so you can adjust the angle to your liking.

STEP 10: Fold the top corner down along the dotted line. This will became the beak. Crease well, the unfold.
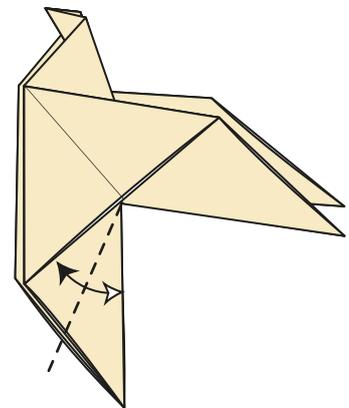

**STEP 11:** Inside reverse fold the beak along the crease from Step 10.

**STEP 12:** Fold the top flap up along the dotted line to form the first wing.
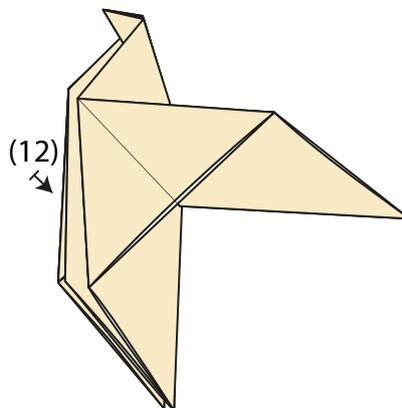

STEP 13: Repeat on the other side to form the second wing.

(12)

STEP 14: Fold the bottom right edge inward to the nearest line. Crease well, then unfold.
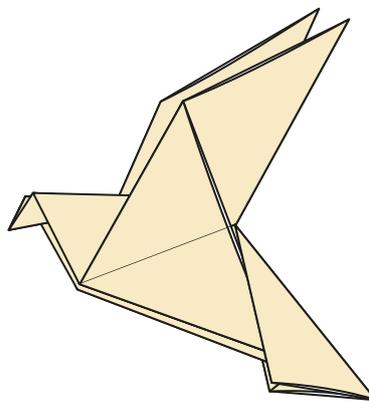

STEP 15: Fold the bottom right edge inward along the dotted line. Crease well, then unfold.

STEP 16: Open the bottom layers and crimp fold the tail using the creases from Steps 14 and 15.

70°

FOLDING TIP: You can leave the tail slightly unfolded for a nice 3D effect!
