

Leviathan (by Caleb Witte)

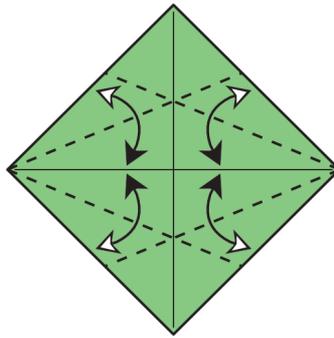

Design: Caleb Witte
Diagram: Peter Buchan-Symons
Web: origami.me/leviathan

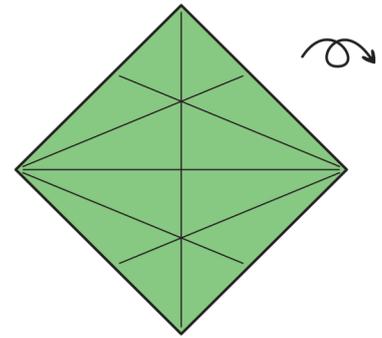

First time:  15cm/6"

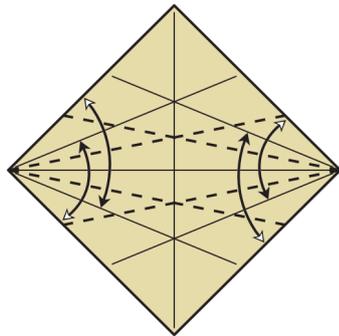

STEP 1: Start with the colored side facing up. Fold and unfold along both diagonals.

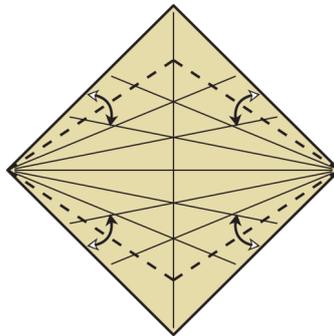

STEP 2: Fold and unfold all four edges to the horizontal centerline.

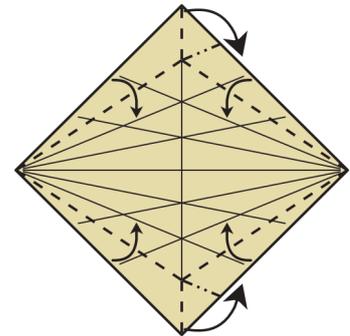

STEP 3: Turn the paper over.

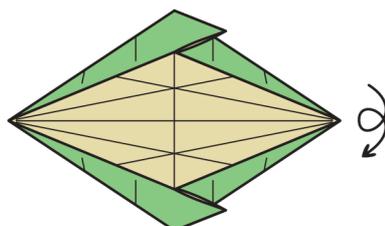

STEP 4: Fold and unfold all edges to the farthest crease lines you made in Step 2.

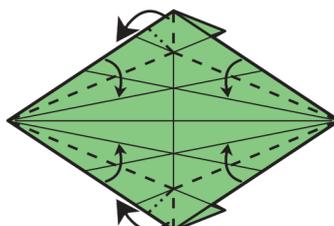

STEP 5: Fold and unfold all edges to the nearest crease lines from Step 2. Only crease from the corners to the vertical centerline.

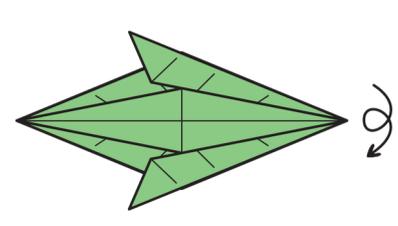

STEP 6: Rabbit-ear fold along the creases from Step 5, folding the top and bottom corners to the right.

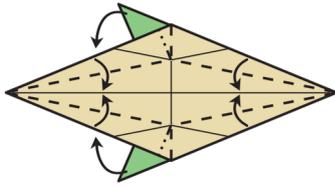

STEP 7: Flip the paper over from top to bottom.

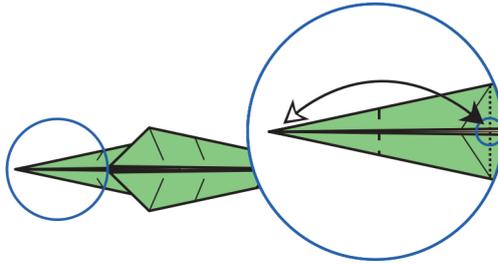

STEP 8: Rabbit-ear fold along the Step 2 creases, this time folding the top and bottom corners to the left.

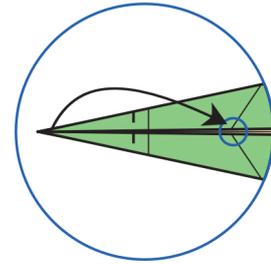

STEP 9: Flip the paper over again from top to bottom.

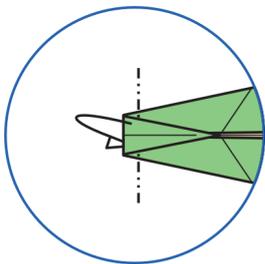

STEP 10: One last time, rabbit-ear fold using the Step 4 creases, folding the top and bottom corners to the left.

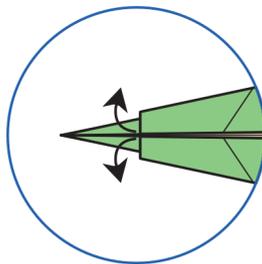

STEP 11: Fold the left corner to the circled point. Crease well, then unfold.

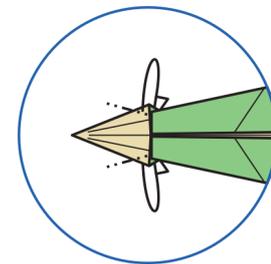

STEP 12: Fold the left corner to the same circled point again.

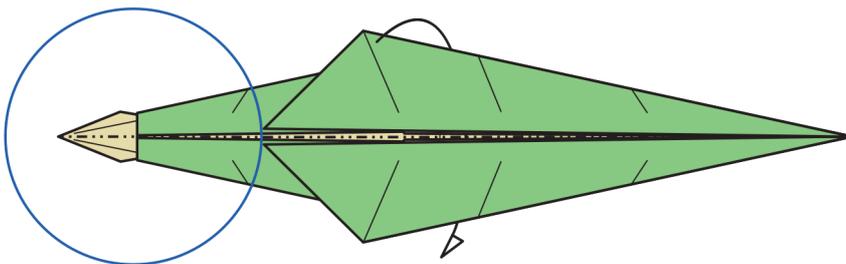

STEP 13: Mountain fold the flap using the crease from Step 11.

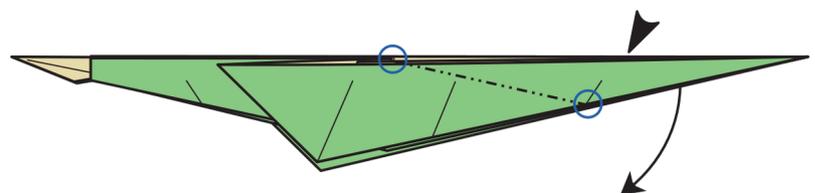

STEP 14: Unfold the top layers to reveal the white triangle.

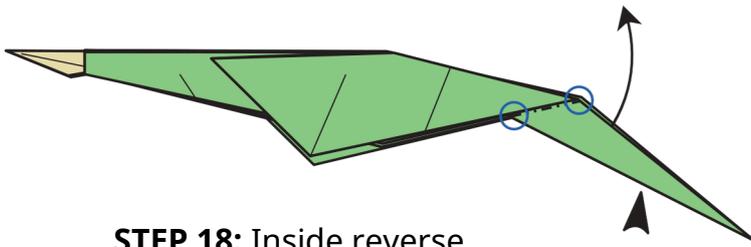

STEP 15: Mountain fold to tuck in the small colored triangles.

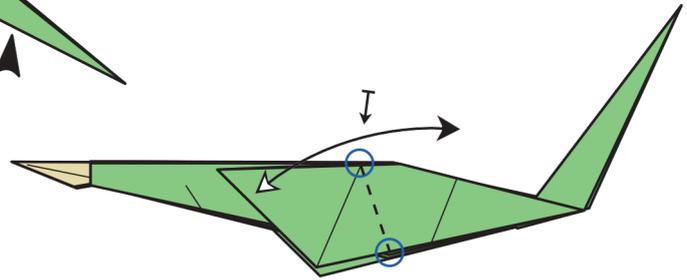

STEP 16: Mountain fold the model in half from top to bottom.

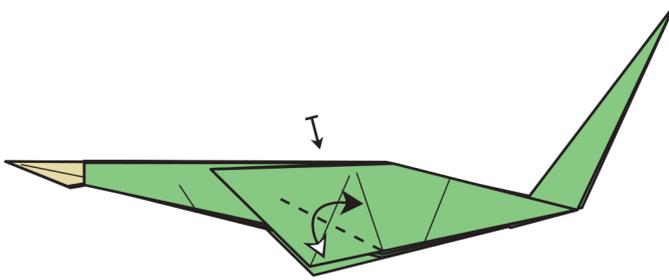

STEP 17: Inside reverse fold the tail using the fold lines between the circled points.

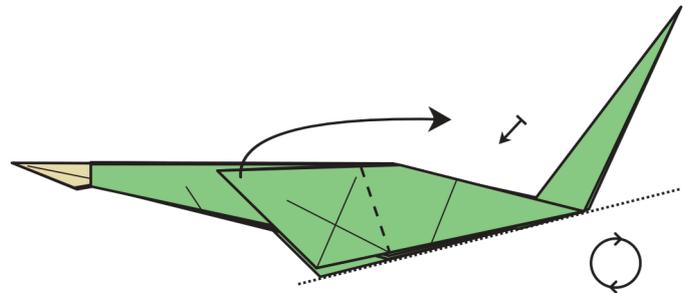

STEP 18: Inside reverse fold the tail using fold lines between the circled points.

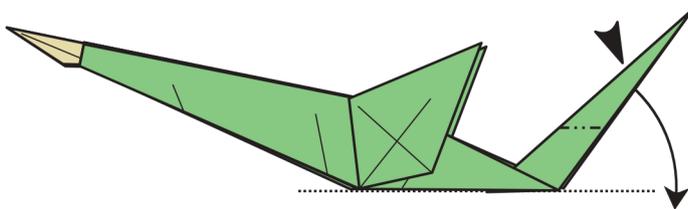

STEP 19: Fold the fin to the right using a fold line that goes between the circled points. Then, unfold. Repeat on the other side.

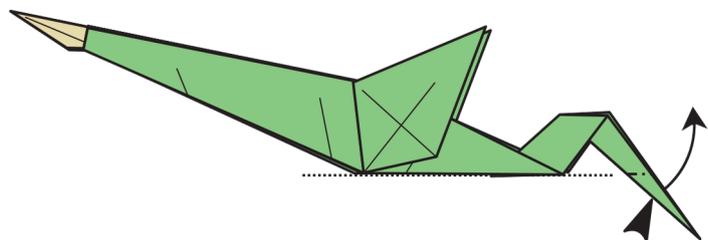

STEP 20: Fold the bottom edge of the fin to the nearest crease line. Unfold, and repeat on the other side.

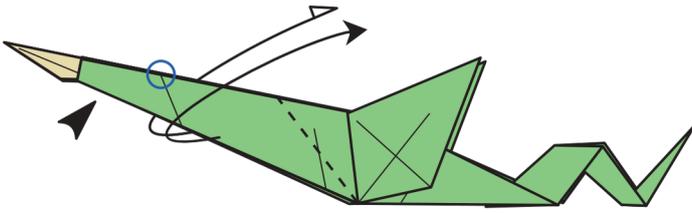

STEP 21: Refold along the crease from Step 19. Repeat on the other side, then rotate the model so the dotted line is horizontal.

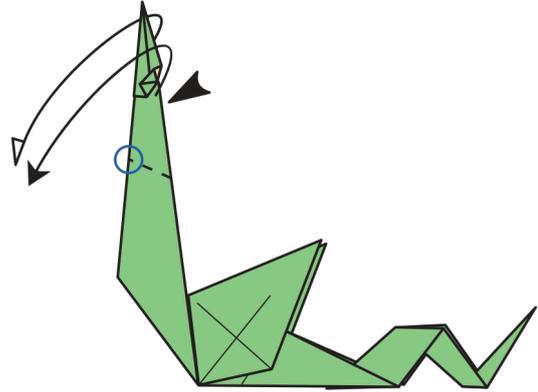

STEP 22: Inside reverse fold along a line parallel to the dotted line.

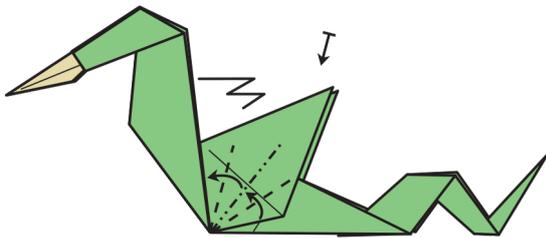

STEP 23: Inside reverse fold again, this time using a fold line level with the dotted line.

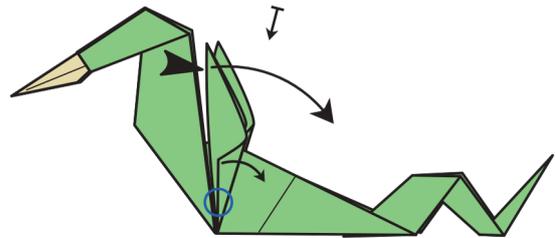

STEP 24: Fold and unfold the neck's bottom edge to the nearest vertical crease. Crease well, then outside reverse fold. Note the circled point. You'll use it in Step 25.

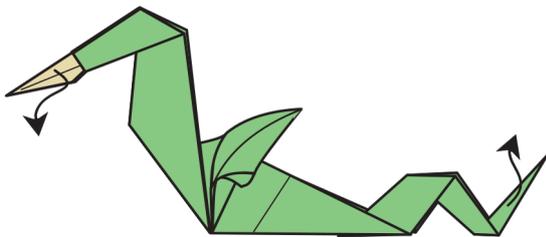

STEP 25: Outside reverse fold the head downward, using the circled point from Step 24 as a guide.

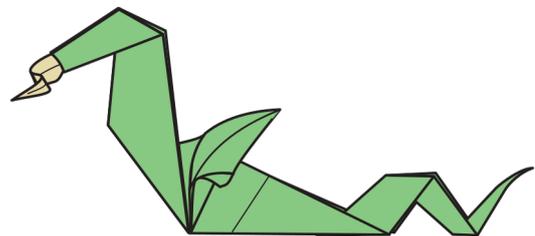

STEP 26: Pleat the fins by folding their edges inward to the centerline. But don't fold all the way to the edge of the paper. Then, repeat on the other side.

STEP 27: While holding the pleats at the circled point, spread open the top layers of the fin. Repeat on the other side.

STEP 28: Curl the flame and tail to finish.

The completed origami Leviathan!
